Life is a wayside inn
For men and brothers:
Some blow in all their tin
To treat the others.

Some hang around till late
To strike some chap,
Who, going everlast,
May treat, mayhap.

Some drink one glass of beer,
Nor deem that risky,
But when a treat they hear
Will order whisky.

Some empty many a glass
While drinks are flowing,
Then reel off home at last,
The bill still owing.

REMARKABLE CURE OF CROUP.

A LITTLE BOY'S LIFE SAVED.

I have a few words to say regarding Chamberlain's Cough Cure Remedy. It saved my little boy's life and I feel that I cannot praise it enough. I bought a bottle from A. E. Steere, of Goodwin, S. D., and when I got home with 't the poor baby could hardly breathe. I gave the medicine as directed, every 10 minutes, until he "threw up" and then I thought sure he was going to choke to death. We had to pull the phlegm out of his mouth in great long strings. I am positive that if I had not got that bottle of cough medicine, my boy would not be on earth today.—Joel Demont, Inwood, Iowa. For sale by Craig & Hocker, druggists.

As two of Stanford's most attractive young ladies, Misses Pearl Burnside and Tevis Carpenter, are leading characters, a number of Lincoln visitors are expected.

It is reported that the Standard Oil Company has leased some land in several sections of this county and will do some prospecting for the crude petroleum. Rumor also states that they would not lease what is known as the "Pollard Oil Wells" of the Flat Lick locality, as it has been found that a former lease still holds good, and that stockholders of this oil venture of over half a century ago, may yet realize something from their investments. This section was first bored and wells sunk over 65 years ago.

Kaufman has returned from a two weeks' stay in Hustonville. James Doores has rented his dwelling to Mrs. Belle Austin and daughter, who will move to their new abode on Monday.

MRS. SALLIE J. BALL,

Aged nearly 87, breathed her last at about 11 o'clock Wednesday night, after being confined to her bed nearly a year. Although an invalid, her death was very sudden, as she was feeling about as usual and was in good spirits when her daughter, Mrs. Swope, gave her a toddy some 30 minutes before she died. It is believed that heart disease caused her death. Mrs. Ball had suffered two strokes of paralysis and possibly it was a third stroke that did its deadly work. She was the relict of Thomas M. Ball, who was a preacher and under whose preaching she professed religion when she was only 17 years old. It was case of love at first sight, it seems, and a short while later they were made one. Mrs. Ball was the mother of Thomas C. Ball, of this place, John P. Ball, of Texas, and Mesdames Elizabeth Routon and Sallie J. Swope. All of the children almost worshipped their aged mother, while the former son's devotion to her was beautiful indeed. He had spent every Sunday for two years, with one single exception, with her and has been as kind and attentive to her as a son could be. He is almost broken-hearted over the loss and wept bitterly when he told us of his mother's death. At 11 o'clock this morning the remains were taken to Gosbee and all that was mortal of the good old mother was laid to rest until the resurrection morn.

Mrs. H. A. B. Marksbury entertained the following at a sumptuous dinner yesterday: Rev. and Mrs. A. R. Moore, Rev. and Mrs. J. E. Woolford, Mrs. G. T. Farris and Miss Sallie Tillett. S. C. Denny and sister, Mrs. Matilda Duncan, have returned from the funeral of Mr. Joe S. Grimes, of Elizabethtown. Miss Florence Tanner, of McKinney, is visiting Mrs. W. K. Shugars. Senator and Mrs. George T. Farris and daughter were called Saturday to the bedside of Mr. Farris' father at Silver Creek.

Larkin Hicks won the first prize in the old fiddlers' contest at Brodhead Tuesday night. Alex Martin, Rowland, second, and Faunt Tyree, of Rockcastle, third. A good crowd was in attendance and all enjoyed the show.

Our people were pleased to hear a few days since that an organization had been perfected for developing the Pine Hill mines. The capital, which is large, we are told, has been secured. Among the enterprises contemplated are coke ovens and a fire clay plant; this county having thousands of acres of fine grade of clay suitable for the purpose.

E. C. WALTON.

W. P. WALTON.

I am a Candidate for Railroad Commissioner for the 2d District, subject to the will of the electorate.

The following dispatch sent from Vanceburg to the Lexington Leader during the Howard trial has fallen short of the probably desired effect: "J. Noel Johnson, the famous writer of short stories of Kentucky life, has about completed what will probably be the most sensational novelette ever written, entitled 'Why I killed Goebel.' The substance came in a letter to Johnson from Asuncion, Paraguay. The writer claims to have killed Goebel and explains why he did it. He did it, he claims, principally because he believed that by putting Goebel out of the way he would save the life of the democratic party. On this letter Johnson elaborates a wonderful tragic romance. The writer claims to belong to an old, aristocratic family. He says that after the Sandford killing he went to Goebel's office and challenged him to fight a duel. Goebel gave him a quiet look out of the corner of his eyes and said: 'Don't you know that every lawyer takes an oath not to fight a duel? This is my busy day,' and waived the young man out. After the shooting he claims he made no effort to escape and later went away only at the tearful importunities of his sisters."

If you want to prolong your life get married. Dr. Fliz, the leading German statistician, is satisfied, after many years of collecting materials, that married persons live longer than single persons but we shall cling to the minstrel's assertion that they do not live longer—it only seems longer. The doctor's figures show that the deaths of married persons between 30 and 70 are three-fifths less than of unmarried persons. The average life of the unmarried person who passes 31 is 58.6, of the married 64.4. The death rate among married persons between 20 and 60 years of age is 6.7 per thousand, unmarried 8.4.

THE Lexington Herald in an editorial has this to say about our brother, for which we extend our thanks: The editor and manager of the Morning Democrat is a Virginian by birth, the son of a Confederate soldier, who came to Kentucky when but little more than a youth, and for years has edited a successful paper at Stanford, and filled with credit to himself a large place in the upbuilding of that community standing for an enforcement of the law and the preservation of order, at times against great odds.

MR. CLARENCE E. WOODS' friends all over the State would like to see him made Senator James B. McCreary's private secretary. We don't know that Mr. Woods wants the place, but he is certainly a well equipped gentleman for it and if he should express the slightest desire to be the Senator's private secretary a monster effort would be made by his legion of friends to secure him the position.

A WASHINGTON dispatch says that the contest over the Louisville surveyorship has developed into a contest for supremacy between Bradley and Yerkes. The president is in a quandary. He would like to appoint Collier, but for the many objections lodged against him.

WHO could blame the Mississippi man who objects to being hung on the same day and scaffold with a Negro? Would any of our readers enjoy such a thing? Of course not.

G. S. DEXTER, who had not taken a drink of water for 40 years, is dead at Fairbury, Ill. It took a long time for stronger drinks than water to get in their work.

Representative Eli H. Brown, Jr., of Nelson county, has introduced a bill which revolutionizes the Jefferson circuit court. It provides that the four or more judges shall rotate monthly on the benches of the several divisions instead of presiding regularly in one court as they do now. An emergency clause is attached.

Hon. R. C. Warren, of Stanford, was in the city Monday mixing with his friends and putting up his fences. Mr. Warren was born and reared in Boyle county and will be mighty hard to defeat for her vote. He has the distinction of carrying a district for Commonwealth's attorney that was largely republican and no better democrat ever lived.—Danville News.

The Senate Committee on Judiciary decided to report favorably the Farris bill which provides for submitting to a vote of the people the proposition to amend the constitution so as to permit a return to the *viva voce* system of holding elections. This was the first bill introduced at this session. At the meeting of the committee all the members voted for a favorable report except Senator Kirk, republican, who did not vote at all.

At last James B. McCreary can read his title clear to the United States Senate and he will take his seat in the "most august deliberative body on earth" with the unanimous good wishes of his party. When McCreary first set his eagle eye on the toga it became his'n, and the subsequent period was devoted to the mere precautionary work of guarding against the remote possibility of a slip twixt the cup and the lip. The victory was as easy as rolling off a log and as slick as the descent to Averas. Yet every step of the way was seeded with good works. Henceforth he will reap only as he has sowed.—Lou. Times.

THIS AND THAT.

Another slight earthquake shock was felt in Chilango, Mexico, yesterday. Isaac Hughes, said to be Gen. Zolliker's favorite colored servant, is dead at Pineville.

The INTERIOR JOURNAL extends its heartiest congratulations to the young folks who have just taken so important a step in their lives.

THE HOWARD TRIAL.

The defense closed its case in the Howard trial at Frankfort Wednesday and the Commonwealth began on its evidence in rebuttal. Several witnesses broke the force of the testimony of Howard's "alibi witnesses," Robertson and Poore, by testifying that they had told conflicting stories of their whereabouts. The State also examined witnesses from the mountain counties, who testified that James Stubbsfield and John M. Collins were men of good character and reputation.

Sam Gregory, Elijah and John Herd, of Clay county, swore that Jim Howard exhibited to them a false mustache, black in color, which he carried in an envelope. William Sanderlin, of Owsley county, testified that Rev. White told him that Jim Howard had killed Goebel, that he and his brother, John G., had spent \$4,000 in the case and they would spend every cent they had to "fetch Jim out." Sanderlin further testified that Rev. White told him that he got Jim Howard to kill Goebel.

Sanderlin was put under the guard of a deputy sheriff after he came to Frankfort to prevent him from leaving town.

He said Robt. Webb came to him and told him if he would escape from the sheriff and not testify against Howard, Rev. White would give him \$50. A GOOD RECOMMENDATION

Try them when you feel dull after eating, when you have a bad taste in your mouth, feel bilious, have no appetite or when troubled with constipation, and you are certain to be delighted with the prompt relief which they afford. in Town.

MIDDLEBURG.

J. T. Short, Sr., has moved into his new house at Yosemite.

Isaac Cowan has bought the vacant lot in the rear of the Baptist church for \$125.

The school at M. N. C. is progressing most nicely and with a good attendance. A few new pupils were enrolled this week and more are expected.

A year ago yesterday, (Jan. 23, 1901), occurred the uprising at Bacolor, Luzon, P. I., when the combined concentrated forces of Gens. Mascardo and Alejandro attempted to take the town by storm, release the 500-odd insurgent prisoners and blow the 41st Infantry, U. S. V., to hades. Their attempt was most futile as told in our letter at the time, resulting in a wholesale slaughter of the enemy with only two Americans slightly wounded. This was our last fight—and was the date fixed for a general uprising throughout the Archipelago.

The combined drug and grocery store, machinery warehouse and undertaking establishment of George R. Jeffer burned Wednesday night about 8:30 o'clock. The fire originated in the lower basement and the building was in flames almost the moment the fire was discovered. Everything is a complete loss, nothing being saved except the books and a small show case. A large and complete line of drugs, groceries, shoes, men's furnishing goods, machinery and a number of coffins and metallic caskets were consumed by the flames. The building was one huge mass of flames almost instantly and it was with hard work that Miller's shop was saved. The loss is something near \$4,000, with insurance of \$2,500.

By unanimous vote the joint Legislative committee on corporations at Frankfort decided to report favorably the double liability repeat bill.

Before the feast has been

Brought on! They start

Upon their journey long

But ill inclined

The feasting, wine and soot

To leave behind.

Then, ere the wine is poured.

They go, unfed,

Made With a Hatchet, a Club and a
Pot of Paint.

In the south seas dresses are made
with a hatchet, a club and a pot of
paint. Every housewife is her own
robe and habit maker. When she feels
the need of a new gown, she goes and
chops down another tree. That is easy, for men
and women are clad exactly alike—a plain
fold of cloth caught about the waist
and hanging loosely to the knee or shins.
The races inhabiting the islands
of the tropical Pacific are almost alone
in having no idea of the loom and the
various arts of the spinner and weaver.

This lack is undoubtedly due to the
natural provision of material which
renders a woven cloth unnecessary to
these primitive people. The only fabric
used in that part of the world is a
crude, tough paper made of bast. The
tree from which the material is derived
is the paper mulberry, or Broussonetia
papyrifera, which is grown in planta-
tions under the sole charge of women
and is also found wild in all parts of
the islands. In archipelagos so highly
advanced as Samoa and Tonga, where
women have none of the coarser
work to do, the entire care of the mul-
berry plantations rests with the women.

The trees are planted closely to insure
a spindling growth without lateral
branches. The plant will grow
from seed. In such a climate there is
no difficulty about getting things to
grow, but experience has shown that
better results follow the planting of
twigs from the sturdier wild trees. In
about three years from planting the
tree will be in the best condition for
the clothmakers. In that time it will
attain a height of twelve feet or more,
and the trunk will have a uniform
diameter of rather less than two inches.
About four feet of the trunk is waste
and not available for the particular
purpose for which the tree is grown;
the first two feet from the base is too
tough to work well, and the two feet
at the top is too soft. If the tree is
properly grown and left to mature,
there will be available for the cloth-
maker a stick of eight feet in the clear
and as straight as a measuring rod,
without knots or branches and of uniform
girth throughout. —New York Tribune.

**AN ATTACK OF PNEUMONIA
WARDING OFF.**

"Some time ago my daughter caught a
severe cold. She complained of pains in
her chest and had a bad cough. I gave
her Chamberlain's Cough Remedy according
to directions and in two days she was
well and able to go to school. I have
used this remedy in my family for the
past seven years and have never known
it to fail," says James Prendergast, merchant,
Annatto Bay, Jamaica, West India Islands.
The pains in the chest indicated an
approaching attack of pneumonia, which in this instance was undoubtedly
warded off by Chamberlain's Cough Remedy.
It countersact any tendency of a cold toward pneumonia. For sale by
Craig & Hocker, druggists.

POWER OF THE HEN.

The American hen laid last year a total
of 10,000,000,000 eggs.

The total value, at an average of 15
cents a dozen, was \$138,000,000.

The hen's earnings were greater than
those of the entire postal system.

The sum realized would have paid the
expenses of the entire war department.

The total weight of the eggs laid last
year was more than 1,000,000,000 pounds.

If the eggs were equally divided among
the inhabitants of the country, each human
being would get 14!.

The number of chickens in the United
States is estimated at 284,000,000.

Admiral Dewey and Joseph Jefferson,
the actor, are inseparable friends at
Palm Beach. They frequently stroll
in the suburbs of the Florida resort,
and the other day were seen sitting on a
fence, swinging their feet like two
school boys, having a good old-fashioned
talk about a lot of interesting things
without interruption.
